

Restaurant Stari Pisker Celje

<http://www.stari-pisker.com/en>

They are located in the very center of historical city Celje, which is known after the powerful Counts of Celje, the most important late medieval noble family on the territory of present-day Slovenia. Their coat of arms with the three golden stars on blue background is inherited from that period. Their vision is very straightforward and has proved to be effective. They offer high quality and distinct culinary experience with matching drinks. Their gourmet burgers and BBQ ribs are known country-wide as is their offer of imported and domestic aged steaks. They say that they are constantly innovating, experimenting and implementing knowledge from our great grandmothers with new culinary trends.
